

Supporting Your Patients

Strengthening your business

We partner with infusion providers and healthcare companies to elevate the standard of care for immune compromise patients while reimbursing for rendered services.

About Our Services

At Sagebrush Health, our goal is to ensure that sexual health services are accessible and easy to understand, regardless of where you live. We understand that the world of healthcare can be challenging to navigate, and we're on a mission to make it more equitable. Our mission is simple: to ensure that everyone, everywhere, can access the therapeutic specialty healthcare they need. We offer free testing and cover treatment costs, because we believe that no one should be denied care because of financial barriers. We stay updated on HIV, AIDS, sexually transmitted infections, and viral hepatitis, with a goal of stopping the spread of infections in your most vulnerable patients.

Benefits

Improved Patient Outcomes

Simple protocols to enhance healthcare standards for vulnerable patients.

Patient Assistance

Qualified patients are eligible for patient assistance programs that promote health equity and medication adherence.

Comprehensive Sexual Health Management

Including sexual health education and screening, discreet treatment and counseling, and PrEP/ PEP medications, all at no cost to your practice.

Practice Health Boost

Resources to address the challenges of falling reimbursements and increasing overhead costs.

Sexual Health is Patient Health

STIs are Sneaky

Older Americans are experiencing a major increase in sexually transmitted infections (STIs) of up to 160% over the last 10 years. Patients on immune-suppressing biologic treatments are at an even higher risk for serious infection.

Bridging the Gap

Sagebrush Health, a national healthcare provider with 11 specialty clinics and infusion centers, is focused on stopping the silent spread of STIs and improving patient outcomes.

Don't Ignore Sexual Health

Sexual health is a vital aspect of comprehensive healthcare yet it's often overlooked by medical specialists, putting their vulnerable patients at risk.

Your Time is Valuable

We reimburse our partners for helping stop the spread. Minimizing the challenges of falling reimbursements and increasing overhead helps our partners stay focused on delivering world-class patient care.

Contact us to learn why medical practices, infusion clinics, hospitals, pharmacies, and medical societies are choosing to partner with Sagebrush Health.
